PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

25X1D

A small, secured storage area, probably associated with Mozdok Airfield, is located 8 kilometers (km) west-northwest of the city of Mozdok.

The installation covers 30 acres and contains a small administration building, a revetted storage building, and 6 general storage buildings. A security fence with cleared lanes on both sides surrounds the installation, and a barrier gate is located at the entrance.

██████████ provided interpretable photography of the area. The referenced Army DPIR, based on TALENT ██████████

██████████ was used for comparison. ██████████ the area has been reduced from 82 to 30 acres, 8 buried bunkers have disappeared, and track activity and roads are no longer evident. Only the security fence, cleared lanes, and barrier gate remain to show that there is still activity.

DESCRIPTION OF INSTALLATION

Road Service

A hard-surfaced access road connects with the highway leading into Mozdok. There is no discernible road system inside the installation.

Ammunition Storage Area

Area F contains a 50- by 20-foot revetted storage building.

General Storage Area

Area E contains 1 administration and 6 storage buildings.
